# Blancco Management Portal

Simplifying access to Blancco products and reports while enhancing security and sustainability

Purpose-built as a central interaction point between our customers and products, Blancco Management Portal offers secure, real-time data erasure and diagnostics management to fulfill compliance and security requirements.

Blancco Management Portal centralizes access to all reporting and notifications you receive from Blancco products. Users can manage diagnostics reports and tamper-proof erasure certificates to aid audit and compliance processes. Maximize your efficiency by taking advantage of anytime, anywhere cloud infrastructure, self-service options, and our userfriendly product knowledge base.

Additionally, our sustainability dashboard helps you achieve your environmental, social, and governance (ESG) goals faster.

Key Benefits

▶ View and manage all product-related activity in one secure place and report precisely on results

▶ Enjoy quick, simple access to product licenses and interfaces, plus a knowledgebase of FAQs, how-to-guides, videos and more

▶ Receive automatic software updates with high scalability and low latency

▶ Work out future emissions savings with our ESG calculator, with data, available via tailored algorithms, on CO_2 emissions reduced by Blancco products for greater sustainability

WHY BLANCCO

Blancco Technology Group (AIM: BLTG) provides organizations with secure, compliant, and automated solutions that accelerate the transition to the circular economy. Our precise device diagnostics help move used IT assets confidently into the circular economy, enabling enterprises, IT asset disposition (ITAD) vendors and recyclers, and mobile industry stakeholders to operate more sustainably.

Globally approved, recommended and certified by governing and industry bodies around the world, Blancco is the industry standard in data erasure and mobile lifecycle solutions. With 35+ patented or patentpending ideas, we continue to grow the number of innovative solutions global companies can rely on to accelerate operations, secure their data, and grow their businesses.
