

Blanco Management Portal

Simplifying access to Blanco products and reports while enhancing security and sustainability

Purpose-built as a central interaction point between our customers and products, Blanco Management Portal offers secure, real-time data erasure and diagnostics management to fulfill compliance and security requirements.

Blanco Management Portal centralizes access to all reporting and notifications you receive from Blanco products. Users can manage diagnostics reports and tamper-proof erasure certificates to aid audit and compliance processes. Maximize your efficiency by taking advantage of anytime, anywhere cloud infrastructure, self-service options, and our userfriendly product knowledge base.

Key Benefits

- ▶ A unified repository for erasure and diagnostic audit reports across your Blanco products , with automatic updates and low latency
- ▶ Integrated Support Portal: push notification updates on your unique Portal, communicating the latest updates on your products directly to you
- ▶ Integration with your systems: ERP, CRM, AMS, WMS and more
- ▶ Comprehensive reports exportable in multiple formats (PDF, XML, CSV)
- ▶ Emission-savings presented via algorithm-driven ESG calculators and sustainability dashboards, with data on CO2 emissions reduced by Blanco products
- ▶ Increased Buy-Back Value: Resell higher with pricing based on accurate asset status from pre-installed erasure

WHY BLANCCO

Blanco Technology Group (AIM: BLTG) provides organizations with secure, compliant, and automated solutions that accelerate the transition to the circular economy. Our precise device diagnostics help move used IT assets confidently into the circular economy, enabling enterprises, IT asset disposition (ITAD) vendors and recyclers, and mobile industry stakeholders to operate more sustainably.

Globally approved, recommended and certified by governing and industry bodies around the world, Blanco is the industry standard in data erasure and mobile lifecycle solutions. With 35+ patented or patentpending ideas, we continue to grow the number of innovative solutions global companies can rely on to accelerate operations, secure their data, and grow their businesses.
