

CASE STUDY: KOCYCLE

# Royal Recognition. Real Impact.

**KOcycle took home the King's Award for Enterprise in Sustainability. Blanco was woven into the operation that made it possible.**

Awarded to fewer than 0.001% of UK businesses, the King's Award is the country's highest business honour. KOcycle's Gold Partnership with Blanco — and the verified, certified erasure records it produces — formed a direct part of the winning submission.

 *Our gold level partnership with Blanco formed a key part of our submission. Together it gave us the strongest possible case."*

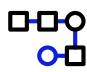

**Hayley Knott, KOcycle**

## What Blanco Powers at KOcycle

 **Certified Erasure**  
Blanco Drive Eraser, Mobile Diagnostics & Erasure, and Apple Eraser cover every device type KOcycle processes—servers to smartphones. Every erasure is tamper-proof and digitally signed to NIST 800-88 and ISO 27001 standards.

 **Automated Workflows**  
Blanco Intelligent Business Routing and Autopilot Detection reduced processing time from 15 minutes to 4 minutes per device—cutting manual touchpoints and enabling consistent output at scale.

 **Client Transparency**  
KOcycle's bespoke portal gives clients real-time asset tracking, instant access to erasure certificates, and a sustainability report showing the environmental impact of every processed device.

**8 years**  
in business 

**Top-ranked**  
B-Corp in ITAD

**5 continents**  
served globally

**KOCYCLE BY THE NUMBERS**

**73%**  
faster device processing with Blanco workflow improvements

**5B+ litres**  
of drinking water saved in 2025

**1M+**  
erasure certificates issued

**33M kg**  
of mined materials avoided

**0%**  
to landfill — every asset, every time

**600+**  
devices donated to UK charities
